

TACTICAL VEST SIZING GUIDELINES

Use the following chart & guide to properly select a size that will fit you. Special OPS™ standard vest sizes are listed below. If you are taking custom measurements use the diagram (left) to make those measurements.

NOTE: These sizes only apply to Special OPS™ vests & custom vests.

MEDIUM	Chest Adjusts { 38"-54" Vest Length { 20" Long }
LARGE	Chest Adjusts { 40"-58" Vest Length { 22" Long }
X-LARGE	Chest Adjusts { 47"-63" Vest Length { 25" Long }
XXL	Chest Adjusts { 53"-69" Vest Length { 27" Long }
XXXL	Chest Adjusts { 57"-73" Vest Length { 27" Long }

For Custom Vests lets say your a 54" Chest and a 27" Length, you need to order an XL and note in COMMENTS 27" Long. This is especially helpful with webbing type vests.

DO NOT ORDER A XXL TRYING TO GET THE LENGTH YOU NEED!!

If you are not sure just enter your measurements in the custom sizing box within VEST BUILDER.
